Oggetto: RE: Message from Mr. Rocca- Extraordinary Commissioner of Italian Red Cross Society- to Mr. Konoé

Dear Friend,

Thank you for your message of sympathy.

Japan is currently facing its worst crisis since the Second World War and are coping with the devastation caused by such tragedy. Japanese Red Cross staff and volunteers as well as the government and civil society organizations are working together for humanity and I can only praise all those involved in the relief effort.

I thank you all for following the situation very closely. Secretary General Bekele Geleta will keep National Societies informed very shortly.

Once more our Red Cross Red Crescent family demonstrated that we all are brothers and sisters and always respond when needed in the Spirit of Togetherness.

Thank you for your kindness, your thoughts and your support.

Yours sincerely,

Tadateru Konoé
